Subject: It has been a year!

Cathy,

I just wanted to show you my results. It has been a year since I started using your product (September 25 2007) and since I read your book (have read it about 3 or 4 times). Also to let you know, I am 23 years old and I have NEVER had a perm or relaxer or whatever it is in my entire life. My mom would never let me get one and now I am just use to my natural hair. I am so excited because I have grown a whole new head of hair (my hair has been trimmed about 5 or 6 times since I started, just to get rid of all the hair that still had the color that damaged my hair to start with). Because of your advice and products, I was able to get a little over 6 inches of hair in a little less than a year. End result pics were taken the beginning of August 2008. I am so excited and everyone I know cannot believe how much my hair has grown and how healthy it is. My goal is to double my length in the next year, continuing to use your products and advice to achieve that goal. I know I can reach it because I see how far I have come in this pass year. I just wanted to say thank you for revealing the information in your book towards healthy hair and making an awesome conditioner and moisturizer. I have plenty of pictures, but I will update you this time next year on how I have reached this second goal, another 6+ inches in the next year!

Thank you,
Tamm
