Subject: THANK YOU !

hi cathy my name is shwayyah rashid , i have been using your products for about 6 months now and your products are great .let me tell you i'm a 24 year old woman who has short hair her whole life because my hair always gets to a certain length and than breaks off. I am also a muslim woman who covers her hair and beauticians always told me my hair isn't growing because i keep it covered when i'm out and about ,I knew this wasn't true because how is my covering my hair stunt my hair growth? when i started braiding my own hair it began to grow but when i took them out my hair began to break again.About six months ago i dyed my hair over my relaxer and my hair started to come out and and it broke off to the scalp i was devastated but i remembered my mom had your book and i decided to read it and it was a very helpful book you talked about our real hair issues and to aply common sense.well cathy i've been ordering your products ever since and i will never use anything else again and my hair is growing beautifully now ,thanks to your research and products.
