Subject: Thank you so much!!!!

Dear Cathy,

I would like to thank you for creating your products and making them available to the rest of us. I am a full blooded Puerto Rican female. Although many may not know this by looking at me. I am have a very dark complexion. (My skin is darker than yours.) And my hair closely resembles black hair. Like you an many black women I also have relaxed hair. I have always had long hair but I can not say it was healthy. My hair was extremely dry damaged and brittle. It was so dry that every time I would blow dry not only was there hair in the comb and on my shirt, but there was hair all over the bathroom floor and the walls in the bathroom and the toilet seat! Your book really opened my eyes. I already knew that you should not rip knots out of your hair and that you should gently work them from the ends. But there was also information in the book that I did not know. I also want to be honest and mention that some of the things I knew better than to do, I did anyway because I didnt think it would be that big of a deal. I couldn't have been more wrong. I have been using your products and following your method since May 11, 2004. I have noticed a tremendouse difference in my hair. In addition to growth, I really feel like my hair has completly transformed. I touch my hair all the time and I feel as If this could not possibly be the same hair I used to have. And beleive me this is a wonderful thing. I truly love it!! I also visit your website all the time. Almost daily and look up different topics. I have also told more women about your website and your products. Cathy, I truly thank you, my hair thanks you and so does my bathroom floor!

Sincerely,

Ivette Berner
