Hello Cathy,

I am an African American Woman, 47 years of age and this is my first order with you. I was first introduced to your products by my son's girlfriend. She gave your products such high praises and I skeptically made an order. I first read the book and I must say, what you said in your book makes lots of sense. I applied the first treatment and I am totally sold. My hair was breaking and weak. The first treatment made my hair stop breaking and sooooo soft. The dew makes my hair a breeze to comb through. My hair is 12' long and I use to hate wash days, which I stretched out to as long as 2 to 3 weeks. It was such a drag to wash and comb through. But now I can't wait to wash and comb through. I love it now especially since I have great products to help me. Oh yeah! did I mention that my hair is of a rough coarse texture along with length and all natural, no chemicals at all. I've been chemical free for about 10 years now and I'm loving it. Thank you so much for such a awesome product line. Please don't ever stop selling your products, I don't know what I'd do without them. I can't say enough about these products!
