I just want to thank Our Heavenly Father for giving you the inspiration to look further into why black hair products weren't working for our hair. I started using your products 2 hair washes ago. I really love your conditioner, it feels like thousands of hands massaging my scalp. I have natural hair and I wear it twisted. I spray the dew moisturier on my hair twice a day. Between the conditioner an dew moisturier my hair is much softer than before and not dry. I have gray at the temples and now the scalp. I'm going to purchase the bigen to color my hair. May you have continued success.

Eleanore
