

Sept. 17, 2004

Dear Cathy,

I just want to say thank you for the UBH Case system. For most of my life my hair has been short and dry with raggedy, split ends.

I have been pressing and perming my hair ever since I was around 9 years old. I have tried almost every hair care system out here! Nothing has worked for me until now. I just recently (since May, 2004) started using your hair care system, aided by tips from the book. I have noticed that my hair is not as dry as it used to be and it is fuller and shinier. Since I just started the system about 4 months ago

I have only cut my ends once, but I already have 2 inches of new growth! As soon as I am able to get some pictures taken I will certainly send the before and after photos to you. May your blessings continue to grow.

Deloris
