Hello, Cathy!

I took this address from you and added it to my address book. I saw it on your website, but was afraid that I might aggravate you with countless emails, lol. I just wanted to say, guuuurrrllll, I love your products!

I believe I wrote this past June on my first order of your products that my hair had grown half an inch or maybe one inch. And again I said it grew an inch. Hmmm. heehee I need to pay more attention to what I write! I should keep track of the inches my hair has grown. Cause I can't send you a picture of my hair cause I wear the headscarf of the Muslim woman. So I have to go simply by inches. So I guess that'll be two and a half inches of growth. But heyyy ayyy! EUREKA! YOUR STUFF IS WORKING!!!

Woman, you just don't know. I first came across your site looking for hairdo ideas. And I also read about you being a Jehovah Witness, so I said to myself I can trust her! Cause one of my salonist in North Carolina was a Jehovah Witness. She was very sweet and kind to my mom and sisters and me. She knew that no man that wasn't a family member could see our hair. So she made sure that no men would just walk up in the salon and see us without our headscarf.

I have been using your products, the Dew spray and the conditioner since June. And my hair used to be right at my shoulders, just to the bottom of my neck. And now its at least 3 more inches past that. Plus my hair is twice as thick like it used to be when I was a little girl. I relax my hair also. The mistakes I did was greasing my scalp, not washing it often, mostly putting my own relaxer in my hair, which ate the back of my hair out and the edges, not deep conditioning it with the hair dryer, using that evil brush too much, and using too many heating appliances on it (especially that evil straightening comb on relaxed hair!).

So I use only your products plus the shampoos you recommended, like Herbal Essence, Tresseme. And the Jheri Rhedding hair polish. I threw out my brushes, all grease and hair lotions, and that straightening comb. Also I use a flat iron on my hair to straighten it out only twice a week. I no longer use my blow dryer. My hair is soooo fly now! My man just loves my hair! Hey, it was due to him I was determined to grow my hair. He said, "I want you to grow your hair long like 'her'" pointing to some lady with long hair of course, heehee. Then he said after so many months of my hair staying the same length, "i bet you can't even grow your hair long". I was like awwwww naw he didn't say that! I said IT'S ON NOW! So now happily he sees my hair is growing! It looks and feels so healthy now! I'm sure that if I didn't wear my headscarf like I do on my head when I go out in public, people would think my hair was weave! heehee, "unbeweavable" heehee.

Okay, whew!!! Enough of my babbling. Thanks a million ( shoot i need a million), Cathy! And keep up the good work, and bunk those critics! (wink and a smile 4u)
