Dear Kathy,

My name is Claudette Moore. Late one night I was searching the web for tips and hair products for black women. I stumbled upon your website and thought I would give it a try, this was October 2004. My hair was very short maybe 2 inches on top and shaved very close in the back. I quickly began using your products and immediately noticed a difference in the change of texture of my hair. My hair now touches my back after using the ultra black hair treatment only eight months. A friend of mine flat ironed my hair 3 days ago, she told me she was jealous of how long my hair had gotten she could not believe her eyes. Thanks, Kathy for allowing God to use you to help millions of black women around the world have the dream many of us have wanted for years.

Grateful,
Claudette Moore
