Subject: Love your products and book

Cathy, I just received your book and products 2 days ago in the mail. I have read the entire book and have been telling my friends about it. Then I tried your products. The creme lotion made my hair very soft. The next day it was time for me to wash my hair. I used your deep conditioner and I was truly amazed. It made my hair feel and look like silk. I have fine, short hair chemically relaxed hair. I wash and wrapped my hair and set under a dome dryer. it did not take my long to realize I had stumbled upon the best stuff available. your deep conditioner is great. I have never experience such immediate positive results from a conditioner. I plan to order the big bottle soon, for I could not stand a chance of being without it now. Will share with all of my friends and family. Everyone I know is looking for good hair care products. Thank you for taking the time to research and create these wonderful products and for writing the most honest, sincere, and educational book. I wish I had know about you 10 years ago. I am sure I would have a lot more healthy hair on my head and money in my pocket.
