Dear Cathy

I read your book in July 2005, and started using your product there and then. I must say that my hair is in very good conditions following your program. I have given my sisters your book to read. on Saturday, called me to find out where I bought your products. Three weeks ago I was having a girls night out, and decided to go to my hairdresser, just to have a wash and press. I asked for my hair to be trim and for the first time in **8 years was told my hair does not need trimming**, he said he does not know what I have been doing to my hair but it is in good condition. When I was leaving he again said to me "I don't now what you are doing to hair, but whatever it is keep on doing it".

I have never felt so good. My hair is completely natural. I stopped relaxing 2 1/2 years.

I now only use your products, I have thrown all hair grease.

I want to say thank you for educating me about my hair.

Timothea James
