Subject: Healthy Hair Growth

Cathy,

My name is Donisha Reynolds. We have three daughters, two preteen (11, Laurretta and 13, Schanel) and one four years old, Saj. All of the girls hair type are 3 b-c. I relaxed my older two hair at a very young age (4-6 yrs). Consequently, I had regret that I did. It began breaking and the texture change to dry and brittle. I have asked the advice of many hair stylist/beauticians and all said nearly the same thing; their texture was lost and hair texture changes. The oldest girls hair would not stop breaking and it appeared thin and damaged. We tried braids with no improvements. Fortunitly, God guided me to your website fully of vital information. I ordered the book the same day. We have been using your hair care system for about 2.5-3.0 months. We shampoo and deep condition twice a week followed by moisturizing. Our hair is so healthy!! It is soft, manageable, and strong! Our older two girls hair has almost returned back to the pre-relaxed/natural curly. NOW, her hair is full, shinny, manageable, strong, and etc. In addition, she has a better self-image. The older two can go without touch-ups now, for about 12 weeks. No, more dry, brittle, lifeless hair. Our hair has grown two-three inches each since starting your method. My hair is 7 inches; oldest 6; middle has 8 inches; and youngest has 17 inches. Thank you for sharing. I have shared your method to all who have seen a difference in our hair and that is alot of people.

May God continue to prosper His mind, purpose, and plan in you, with His wealth.

Thank you!

Warmly,

Donisha
