Miss Howse,

I just wanted to tell you that your products and your system are a Godsend and I am thankful that I found something that is helping my hair really grow! All people keep saying to me "wow what are you putting in your hair, it's really growing!" I keep trying to tell them about your system but they don't want to believe that they have to wash their hair so often but hey it works. Thank you. May God bless you.
