Hello Cathy,

I have been using your product for about 4mths now and LOVE it. I have also researched this area in an effort to develop a product such as yours. I was happy to see that someone found the the answer to such a great need. I have since told every black woman I know about your product. I hope you have seen an increase in sales. I am a Registered Dietitian at local hospital as well as recent Naturopathic Mediene graduate awaiting licensure to practice medicine.

Thanks again for your great service and many more blessings to you.
