**Subject:** Hair Care Testimonial

Ms. Kathy Howse,

I just wanted to send a letter to you that is long overdue. Your products and advise about how to care for hair WORK. I first started using your produce in 2002 after I put a curl on top of a perm. Needless to say my hair came out. I followed your instructions and in 2 years had a healthy head of hair about shoulder length. I continued to use your products and in 2007 my hair had gotten so thick and the length reached below my shoulder blades, that people were asking me if "that was my real hair". This is now 2008 and in the last 6 months I stopped caring for my hair and went back to old habits (not properly caring for my hair: not moisturizing my hair, pulling when I comb, waiting days-sometimes weeks I'm ashamed to say- before washing my hair, leaving in styling products which dried my hair, and applied excessive heat on a daily basis), and needless to say, my hair started breaking and thinning over that period. I have gone back to the good COMMON SENSE hair care habits you advise in your book and "wonder of wonders", my hair has stopped breaking and the moisture level is returning. ( owe you before and after photos).

Thanks again for your honesty and for sharing & caring. May God continue to bless you- Denise

P.S. I'll be placing another order this week
