Subject: Smooth Sailing

Ms. Cathy Howse, I know that you were fed up receiving my e-mails about the problems that I was having (smile), but as of 7/1/08 when I got my relaxer, I have had nothing but great hair. Of course I didn't cut the ends, and I was able to see the inch that my hair has grown (I was speechless) since my last relaxer on 5/18/08, (believe it was an inch for real !!.) My hair has not broken much since I applied the asphogee treatment 3 days after my relaxer and it is soo soft and my husband keeps running his hands through my hair since he has always encouraged me to wear my natural hair. I am thoroughly happy with the results!! I believe that since I switched relaxers AND it was time for my retouch I was having so many problems before, thank God that I didn't have a lot of breakage, I found you right on time and I want to say thank you, thank you !!

** You were patient and helpful

** My hair feels great

** Your system will allow me to keep the length I have and continue to achieve longer lengths(I have a lot of confidence)

Again Ms. Howse, thanks for the patience you showed me and for your system all together, you are really genuine to help and.. thank you !! I wish there was something else I could say to you so you could understand my gratitude, but I know you get the picture..lol !

Peace and Blessings,
Toya P **Houston, TX**
